While dispatching for both Fire and EMS, she was also responsible for maintaining dispatch support for the Sheriff's Department as well as Rincon, Guyton, and Springfield Police Departments. In November of 2002, Mrs. Ryall left the Effingham County Sheriff's Department and began her employment with the Statesboro Police Department as a Communications Officer.

In January of 2008, Mrs. Ryall became the Supervisor over Communications and Records, overseeing the staffing and operation of both areas. She prepares yearly schedules for the communications officers, conducts staff and training meetings, and compiles quarterly and annual performance evaluations for communications and records personnel. to in progress calls. Communicating constantly with officers, complainants, Central 911, and other surrounding agencies demands they have excellent communications and customer services capabilities. The Communications Section is responsible for constant monitoring of the GCIC/NCIC terminal for important messages related to state and national broadcasts. They relay this information to officers as needed. They also make entry into NCIC any stolen property and wanted/missing persons. After hours, they assist complainants who come to the Police Department to make reports or pay cash bonds, all while maintaining constant communication with the officers on the street.

Without their hard work and dedication, the rest of the Department could not function. The Communications Unit handled nearly 77,000 calls for service during 2013. Those calls originate from either Central 911, telephone calls to the department, walk-ins to the station, or officers themselves over the radio. The capability to multi-task at a very high degree of accuracy is a requirement to keep the Communications Unit running without error.

The program was implemented in 2013. UCR PART ONE CRIMES

Statesboro Police Department Part One Crime Trends

The Statesboro Police Department's FBI Uniform Crime Reporting Part One (1) Crime Statistics are in for 2013 and the downward trend continues since the transition to the Public Safety Model in 2010. Part 1 Crimes include theft, simple assault, burglary, aggravated assault, motor vehicle theft, robbery, forcible rape, and homicide. The FBI's UCR Program is a nationwide, cooperative statistical effort of nearly 18,000 city, university and college, county, state, tribal, and federal law enforcement agencies voluntarily reporting data on crimes brought to their attention.

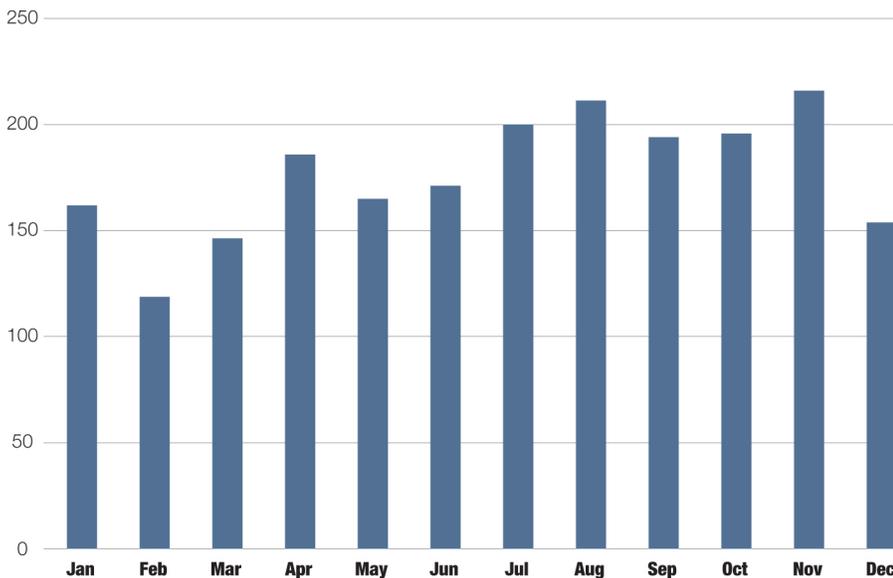

Since 1930, the FBI has administered the UCR Program and continued to assess and monitor the nature and type of crime in the Nation. The program's primary objective is to generate reliable information for use in law enforcement administration, operation, and management; however, its data have over the years become one of the country's leading social indicators. Police Administrators, criminologists, sociologists, legislators, municipal planners, the media, and other students of criminal justice use the data for varied research and planning purposes.

**STATESBORO POLICE DEPARTMENT
Total Part One Crimes by Year**

In 2009, law enforcement agencies active in the UCR Program represented more than 295 million United States inhabitants—96.3 percent of the total population. The coverage amounted to 97.1 percent of the population in Metropolitan Statistical Areas, 90.9 percent of the population in cities outside metropolitan areas, and 93.0 percent of the population

in nonmetropolitan counties. The Statesboro Police Department uses this data to measure the progress of their crime prevention and program efforts and has compared the UCR Part 1 Crime Statistics for each year from 2010 to 2013.

In demonstration of the downward trend in overall Part 1 Crimes from the year-to-year comparison you will realize that the community should be very proud of the productive efforts of the Statesboro Police Department and its law enforcement partners.

The City of Statesboro has been experiencing growth over the last decade in population, development and City limits despite a struggling economy. The City population has grown by over 25% since 2000 and is currently estimated to be over 29,000.

STATESBORO POLICE DEPARTMENT

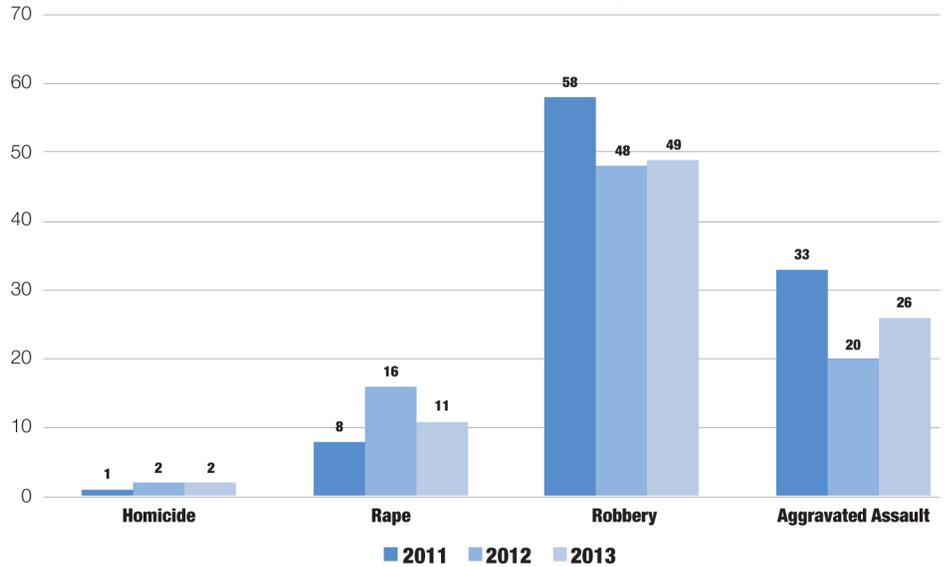

UCR PART ONE CRIMES

Georgia Southern University has experienced tremendous growth to over 20,000 students. Ogeechee Technical College and East Georgia College are also experiencing growth with student body. Furthermore, all these higher learning institutions are projecting continued growth over the next five years. Housing communities are continuing to be developed and add to more population densities and service area. Commercial development is consistently rising; the City permitted almost \$114 million dollars in construction value from January 2011 to December 2012. The City has annexed approximately 742 acres of property within the last two years. Nevertheless, as a result of all this progress and growth overall crime has gone down.

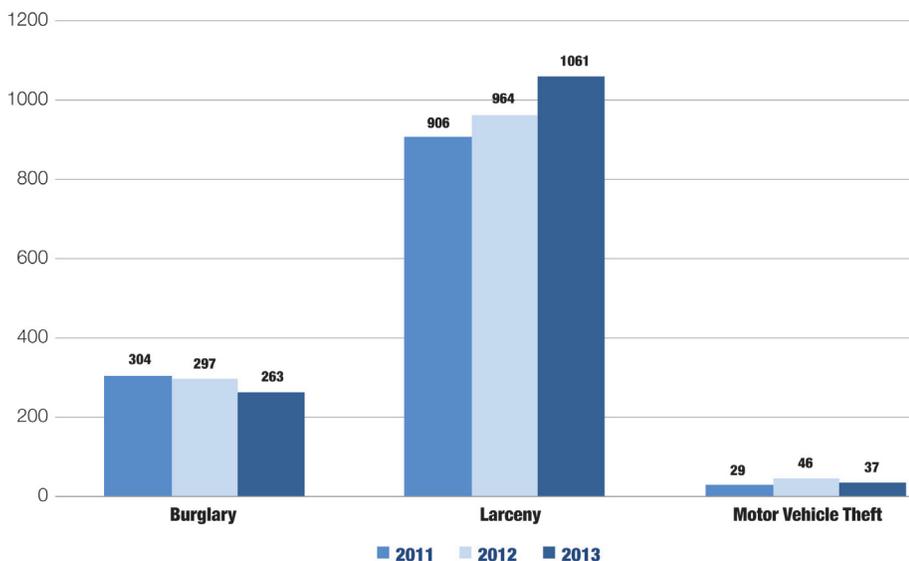

The Statesboro Police Department attributes the reduction in the overall crime rates to several Community Policing and Problem Oriented Policing strategies, organizational improvements and newly developed partnerships for increased community awareness. The Department has undergone organizational changes in which positions were re-allocated to add valuable line level positions to the agency and increased resources in areas of need.

The Statesboro Police Department has also established an excellent partnership with local and regional media outlets to include the Statesboro Herald. Transparency and awareness was one of our goals as a Public Safety Department and this has certainly been accomplished. The Herald receives our press releases and gives them proper attention so that the community can be aware of any issues involving the Public Safety of our City from a good job done by Police in making an arrest to the reporting of serious crime stories. We believe that this transparency has increased awareness.

STATESBORO POLICE DEPARTMENT Part One Property Crimes Yearly Comparison

The Police Department has also increased its efforts in technology, equipment and Officer training. This too, has led to the reduction in crime. The On-line Crime Reports/TipSoft software that is available to the community has allowed an anonymous avenue of citizen input or information about crime or ongoing concerns and displays crime across our community for awareness and reporting. The Department utilizes this Crime Analysis software to more effectively target crime in the areas and time they are occurring by placing the resources there to address it. This initiative has also led to the decrease in crime.

STATESBORO POLICE DEPARTMENT

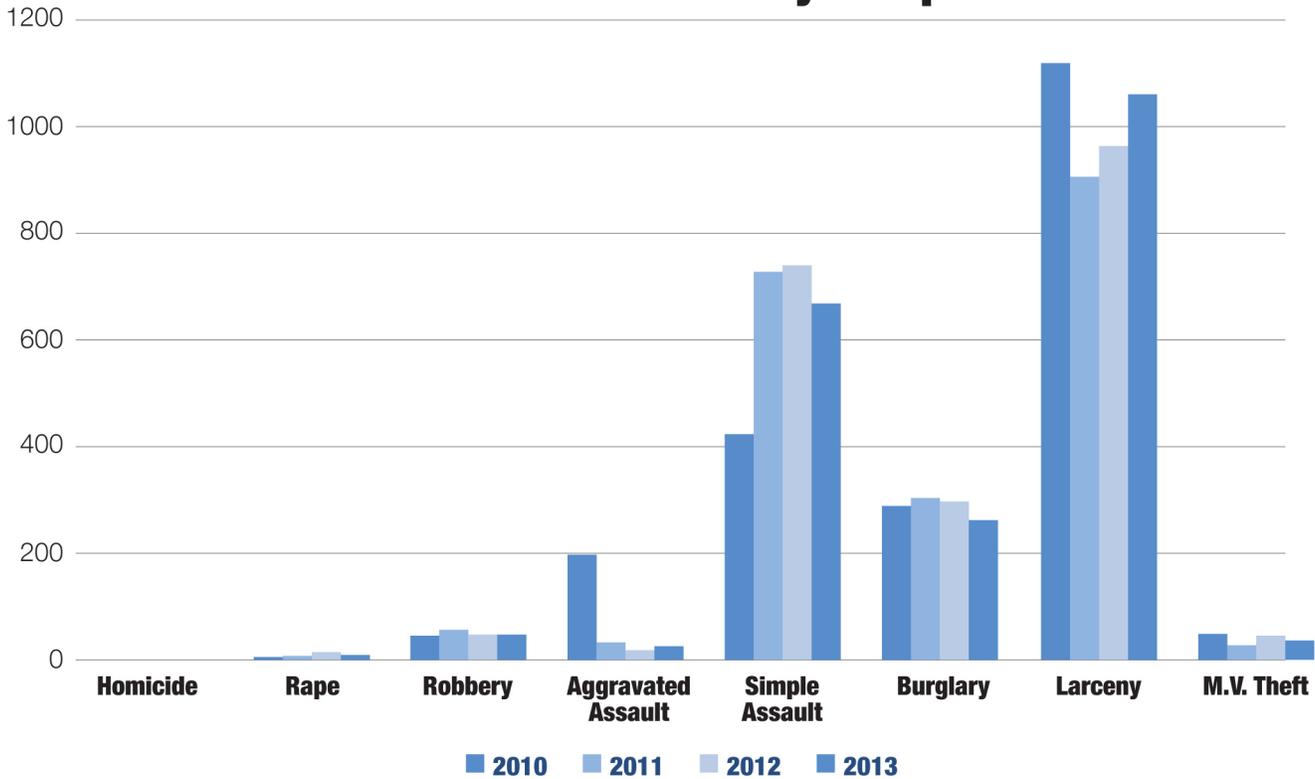

UCR PART ONE CRIMES

Better trained Officers in the areas of crime scene processing have led to several arrests from fingerprint evidence located at crime scenes. Aggressive and relentless criminal investigations from our Investigative Bureau have attributed numerous arrests and the reduction in crime. Our Crime Suppression Unit has been extremely successful in the apprehension of violent felons, burglary and illicit drug violators.

These examples are just a few of the many ways your Police Department has developed new techniques, equipment, community programs and transparency to combat crime and increase our service to the community. We are committed to serving Statesboro and will continue our efforts while we follow our core values of Commitment, Compassion, Leadership, Integrity and Professionalism.

SPECIAL OPERATIONS - ERT

Emergency Response Team

The Statesboro Police Department Emergency Response Team is an elite team of officers specially trained to handle threatening situations that fall outside the capabilities of patrol officers. The Emergency Response Team is primarily used to serve high-risk search and arrest warrants. ERT is also used for barricaded subjects, active shooter situations, dignitary protection and other special assignments.

The Emergency Response Team is made up of 10 to 12 officers consisting of entry operators, counter-snipers, and crisis negotiators. Operators train rigorously and consistently to stay in top physical form. They are among the best marksmen and most highly trained officers in the Police Department, coming from primary assignments in all Bureaus and undergoing a strict physical and mental evaluation prior to selection. ERT Operators are required to train sixteen hours a month and one full week a year. Training topics include firearm proficiency, building entry and clearing skills, hostage rescue, less lethal force options and dignitary protection.

The Statesboro Police Department, Emergency Response Team is an invaluable resource for the handling of unusual occurrences. The availability of a highly trained tactical team has been shown to substantially reduce the risk of injury or loss of life to citizens, the police and suspects.

In 2013, the Statesboro Police Department Emergency Response Team participated in SWAT Roundup in Orlando, Florida.
